CUSTOM DESIGN FINISHES

- Make use of extra living space with a luxurious and spacious floorplan.
- A mudroom keeps the family coming in while the mess stays out.
- For many people, the kitchen is the hub of the home. So why not enjoy a gourmet kitchen with granite countertops and stainless steel appliances to make the kitchen experience extraordinary.
- Keep your family content with private secondary bedrooms and walk-in closets.
- Enjoy a private guest suite or study for your guests or yourself on the main floor.
- Make room for fun. An over-sized media room gives you more recreational space for the whole family.
